Skills

Front-End Development: Proficient in React, HTML, CSS.

Programming Languages: C++, JavaScript.

Frameworks and Libraries: React Bootstrap, React Spring.

Problem Solving: Strong foundation in algorithms and data structures.

Version Control: Experience with Git and GitHub.

Certifications

1. Programming Foundations - Level 1 (ProgrammingAdvices, 2023-07-22)
2. Algorithms & Problem Solving Level 1 (ProgrammingAdvices, 2023-08-04)
3. Programming Using C++ - Level 1 (ProgrammingAdvices, 2023-10-01)
4. Algorithms & Problem Solving Level 1 Solutions (ProgrammingAdvices, 2023-10-28)
5. Introduction to Programming Using C++ - Level 2 (ProgrammingAdvices, 2024-01-16)
6. Algorithms & Problem Solving Level 2 (ProgrammingAdvices, 2023-11-14)
7. Algorithms & Problem Solving Level 3 (ProgrammingAdvices, 2024-01-21)
8. OOP as it Should Be (Concepts) (ProgrammingAdvices, 2024-03-18)
9. Algorithms & Problem Solving Level 4 (ProgrammingAdvices, 2024-02-10)

Projects

1. Dates Reminder: An application to track important dates such as birthdays and special occasions, built with React. [Project Link](https://dates-reminder-beige.vercel.app/)
2. Question Answer: An interactive application that displays questions and answers, developed using React. [Project Link](https://question-answer-umber.vercel.app/)
3. Restaurant Menu: An application that displays a restaurant's menu, built using React. [Project Link](https://restaurant-menu-sooty.vercel.app/)
