## Profile

"I am a dedicated web developer with a strong background in creating responsive and user-friendly websites using modern technologies like React and Node.js"

## Projects

- |                   |  |
|-------------------|--|
| 10/2024 – present | <b>My-Portfolio : &gt;&gt;</b> <a href="#">🔗</a><br>Created a personal portfolio website using React to showcase my projects and skills. The site features a clean and modern design, allowing visitors to navigate through various sections easily and learn more about my work and experience.                               |
| 10/2024 – 10/2024 | <b>Restaurant Menu</b> <a href="#">🔗</a><br>Developed a responsive restaurant menu application using React, allowing users to browse and select dishes effortlessly. The application features a clean design, showcasing food categories and detailed item descriptions for an enhanced user experience.                       |
| 10/2024 – 10/2024 | <b>Question Answer :&gt;</b> <a href="#">🔗</a><br>Created an interactive question-and-answer application using React, enabling users to ask questions and receive answers in real time. The app features a user-friendly interface and efficient data handling, providing a seamless experience for users seeking information. |
| 10/2024 – 10/2024 | <b>Dates Reminder :&gt;&gt;</b> <a href="#">🔗</a><br>Developed a dates reminder application using React that allows users to set and manage reminders for important events. The app features an intuitive interface with local storage functionality, ensuring reminders are easily accessible and persistent across sessions. |
